

Cadets going home unescorted

This applies primarily to “junior” cadets but may also apply to some younger “senior” cadets or those with specific needs.

Consideration needs to be given to which cadets are allowed to go home unescorted and those that must be collected by a parent/carerer.

Good Practice

- Send a letter home at the beginning of the year to establish if the cadet can go home unescorted
- Keep a list of approved people for picking up cadets
- Keep cadets who are to be picked up in a separate area within the weekly meeting premises at the end of the session until they are collected
